

RM027-US

Support Rail Installation

- ① Support Rail (each of right and left) 1 set
- ② Spring nut 12 pcs
(These are not used when the tap process is on the Mounting bar.)
- ③ Fixing screw 8 pcs
- ④ Pan head small screw (attached on ①) (8 pcs)
- ⑤ Flat head screw (M5) 4 pcs

Tighten these screws firmly so that these are not loose after adjusting depth.

The figure shows how to install the left side support rail. Install the right side support rail in the same way.

mm [inch]
